Make your order page or form easier to understand. Complicated order pages make customers nervous. Remember to restate your offer on your order page.Â Include a phone number where people can call for questions. I know this is tricky to handle, but it can boost your response by a surprising amount. Include a photograph of what youâ€™re selling, if you can. Is there a lot of distracting navigation leading your customers away? This book is designed to make the task much easier for you. Each chapter takes you through a series of steps that help you focus on a specific area of Web development and promotion. It is absolutely vital that you do not design a Web promotion strategy with a traditional communications model in mind. The feature that distinguishes the Web from all other traditional mass media channels is the opportunity for interaction between you and your audience. The Web allows your site users to share their knowledge, interests, and opinions with you and each other.Â I have had two within the last 5 years - 101 Ways to Boost Your Web Traffic is one. Mr. Wong's book is easy to read, easy to implement, and free of excess rhetoric.
