About Teaching Mathematics quickly became a much sought-after resource upon its publication in 1992. With more than 200,000 copies in print, it presents information necessary for teachers to teach math through problem solving, to understand the math they are responsible for teaching, and to understand how children best learn math. Now Marilyn Burns has updated and expanded this important resource, including an entirely new fifty-page section, "Mathematical Discussion." Here she addresses many of the problems and activities in the text, presenting the underlying mathematics for each as followed by whole-class, small-group, and individual investigations organized into five areas of the curriculum: Measurement, Data, Geometry, Patterns and Algebraic Thinking, and Number and Operations. Part 3, Teaching Arithmetic, focuses on the cornerstone of elementary mathematics curriculum, offering ideas and assessments that build students understanding, confidence, and competence in arithmetic. In Part 4, Questions Teachers Ask, features Marilyn's responses to 4.
