œThe Satellite Bible Atlas is characterized first and foremost by beautiful satellite imagery and detailed historical markings. No other atlas features so many large maps with nearly every biblical event in Israel depicted with precise detail. Each map is accompanied by commentary that draws out the geographical significance of the history to bring the story alive to the reader. As one who has taught college and seminary students in Israel for 25 years, Bill Schlegel understands and communicates God’s revelation to his people in his land in a way like few others. The Satellite Bible Atlas dese Bible Atlas. Author: Zaine Riding. Addeddate. There are no reviews yet. Be the first one to write a review. 1,083 Views. 11 Favorites. Having a Bible Atlas handy is a great tool if you are serious about studying the Bible: It not only makes historical narratives in the Old and New Testament become alive but sometimes it answers questions and provide deeper insights into a passage of what’s going on. I thought this book was helpful for both preachers and the layperson and it is worth purchasing. Anyone studying the Old Testament will love this Bible Atlas. I'm one of those people who can't imagine where all the territories are and what stage new regions were developed. I have found it easier to follow the O.T. prophets since purchasing this book.
