DEFINING PUBLIC ADMINISTRATION When people think about government, they think of elected officials. The attentive public knows these officials who live in. The attentive public knows these officials who live in the spotlight but not the public administrators who make governing possible; it generally gives them little thought unless it is to criticize "government bureaucrats." Yet we are in contact with public administration almost from the moment of birth, when registration requirements are met, and our earthly remains cannot be disposed of without final administrative certification. Our experiences with public administrators have become so extensive that our society may be labeled the "administered society".
