Fabric manipulation is any technique that can alternate the fabric. Techniques can be used to take away volume, add volume or just add intricate detailing that makes your garment look interesting. Here are some techniques used: Gathering. Threads stitched through fabric are drawn together to reduce the fullness of a material to a required width. Shirring. Parallel rows of stitches are worked to reduce the fullness of a material to a required width. List of different fabric manipulation and other techniques you can use to make a stunning fabric with texture. I used to love crafts and painting when I was young. Then my attention turned to fabric and there was no looking back. For me, nothing beats fabric and sewing in exploring creativity. Sewing allows me to play with color and do all the things I love and more; maybe more than what I could do when I was painting. My Fabric Manipulation book has been translated into German and Spanish. I love the cover of the Spanish version. With my three books, I now have been published in Finnish (twice) Norwegian, Russian, Spanish & German. I'm really quite chuffed that people all over the world read my books! I posted a copy to Brazil recently too. Amazing. author, costura creativa, Ruth Singer, stoff manipulation 5 Comments.
