Don't miss the end of what Playboy called "a modern myth, as well as a prÃ©cis on why the stories we tell matter so much. Vertigo 608 pages. Reviews.Â "The Kindly Ones" was an excellent story, a great plodding tragedy only slightly hampered by Marc Hempel's art -- never been a fan. "The Wake"'s art on the other hand was so drastically different that it was a bit jarring. It ties together a lot of the loose threads of Gaiman's complex universe. Overall Volume 4 was by necessity more cohesive so it was an improvement over the scattered brilliance of the last one. I could see how it could have been a satisfying conclusion to the series. But there's more! Start by marking "The Absolute Sandman, Volume Four" as Want to Read: Want to Read saving! Want to Read.Â I think reading The Sandman may have been the one thing I ever did that was cool, and I didn't do it because it was cool, I did it because I loved it, and it became cool for a while. I'm not sure anyone noticed me doing this cool thing while it was cool, but maybe that's what's cool about it. I still have Overture to read, which I'll get to tonight, and then there's assorted extras like The Dream Hunters and the Death collection and Books Of Magic, which is only vaguely related, which I'll get to eventually.
