Description:

From Michaels is a RITA Award-nominated author of more than 75 romance novels, and she distills everything she has learned over the years into this useful writers' guide. After a short summary of the genre and a survey of the different kinds of romances, Michaels explores the process involved in writing a captivating love story. From creating convincing characters and understanding conflict to writing good dialogue and crafting an entertaining plot, *On Writing Romance* provides plenty of practical details and useful examples to help aspiring writers get started. Michaels even includes a concise guide to submitting a manuscript to a publisher and to marketing one's own work. A good basic introduction to a potentially gratifying pursuit suitable for most public library collections. *John Charles*

How to write romance “tips for writing a novel that sells. How should you plan your novel outline? How hot can you make bedroom scenes? Answers to frequent questions. A commercial novel is one that's written to sell. A commercial novel therefore follows certain rules determined by the marketplace -- by what people want to buy. This doesn't mean it can't be a good novel! In fact, the fundamental elements of a successful romance novel are the same as with other types of fiction: characters the reader cares about, a conflict that moves the story from A to B, good dialogue, and vivid writing that "shows" instead of "tells." But in romance novels, these elements of fiction normally take a certain form. Why I Started Writing Romance Novels. Romance was never something I thought about writing. I've been a prolific reader of romance since my early teens. I've read hundreds of Harlequins and as I got older, historical romances, which are my favorites. I had no idea about how to go about writing a romance novel, so I literally sat down and googled “How to Write a Romance Novel.” It was just what I needed, because I had no idea what the heck I was doing. That outline was a lifesaver; it told me exactly what to do. FYI, here are some great tips on how to design a book cover that sells. 5. Start a Mailing List When You Write Romance Novels. One of the first things you should do as a romance writer is to collect the email addresses of your readers. While On Writing Romance is intended mainly for writers working on romance novels, the techniques are useful to all those who include romantic elements in their books. I hope you will find it helpful! Falling in love has been a prominent theme in literature since people first started recording stories. Entire volumes “how-to books as well as reference books” could be written about the many categories of romance novels. The list that follows is intended not to take the place of in-depth study, but to introduce you to the wide variety of romances available in the industry today and to share some of the basics about the advantages, disadvantages, and challenges involved in writing specific romance categories.
