Now in its tenth edition, California: An Interpretive History provides an up-to-date and comprehensive survey of California's political and economic history, along with an account of its social and cultural affairs. First published 45 years ago, the text has become the standard in the field. The authors appraise the state's virtues and accomplishments, as well as its faults and failures. California - California - History: When Spanish navigator Juan Rodríguez Cabrillo became the first European to sight the region that is present-day California in 1542, there were about 130,000 Native Americans inhabiting the area. The territory was neglected by Spain for more than two centuries (until 1769) because of reports of the region's poverty and a general slowdown of Spanish exploration. The merchant Sebastián Vizcaíno sailed from Mexico to the southern California coast in 1602, naming San Diego, Santa Catalina Island, Santa Barbara, and Monterey. Working with inaccurate maps, Vizcaíno
